Support for people and families from ethnic minorities with learning disabilities

Produced by Hampshire County Council Adult Services Department
Designed by Piers Cross.
Photos: Photosymbol, Microsoft Images, Charlotte Morse
Printed by Hampshire Printing Services  February 2010
This project works to make life better for people from ethnic minorities who have learning disabilities

How?
• We know that it can be hard for people from minority ethnic communities to get clear information that is easy to understand.
• We need to help people from minority ethnic communities to use our learning disability services.
• We are also here to help their families and carers

How we can help you

We can talk with you about learning disability
We can talk about your needs

We can help you to use support services

We can support you if you experience racist behaviour due to your background and/or disability

We will help you to find an interpreter if you need one

Proud2B groups

You can join one of our Proud2B groups to have fun, explore cultures and things to do in the community
